1

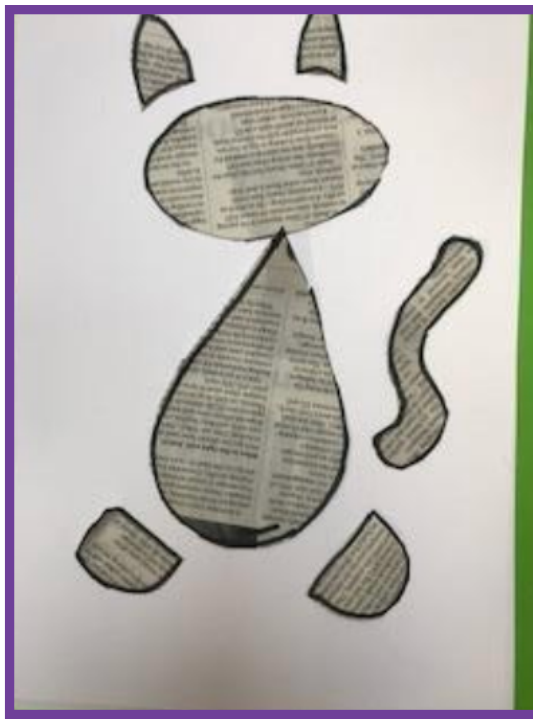

- Gather all the materials you need for this activity.
- Draw the shapes you see here onto your sheet of newspaper using a black marker. There are ears, head, tear-drop shaped body, tail and 2 semi-circle paws to draw.

2

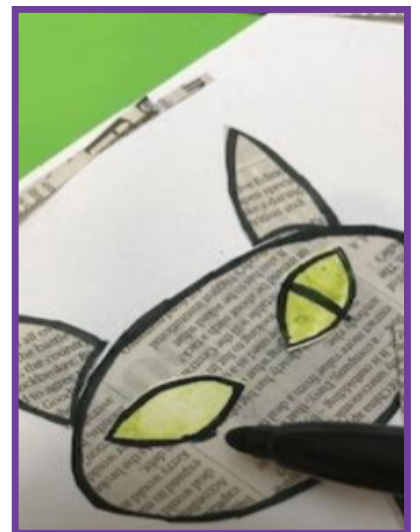

- Now cut each shape out carefully. Your collage cat is ready for assembly!

3

- Assemble the shapes to resemble the example below: head and ears on top of the body and the paws and tail in the right position too.
- Using your glue stick, now firmly stick each individual shape into place. Your cat will really start taking shape now!

4

- Next job is to give your cat some eyes, a nose and whiskers.
- I cut out two oval eyes and a triangular nose.
- I cut some long strips of newspaper for his whiskers. I coloured all the pieces using a marker and attached each piece to my cat using my glue stick.

5

Now your cat is looking good and ready to go!

- You can use this technique to create lots of different fun and interesting art. Look at the shark I made!

I hope you have super fun creating newspaper collages of your own and I can't wait to see your artwork on Twitter!
