

Athlone Education Centre School Challenge

Marble Run

Make the longest marble/ball run you can using materials you find within your home. There must be one turn and one drop in the marble run.

Materials

- A Marble/Ball
- Materials you find within your home

Instructions

- Design a marble run
- Act like an engineer and follow the engineer design process.
- Make the run as long as you like. If you don't have a marble at home, use something similar eg a ball.
- You must include at least one turn which means the marble must turn/change the direction in which it is moving.
- The marble must drop unsupported through air at least once in the marble run.
